Dear Mr. Gidwitz:

Thank you for your letter of May 20, 1987 to President Reagan regarding the illegal sale of sensitive technology to the Soviet Union by the Toshiba Machine Company and Kongsberg Vaapenfabrikk. We consider the diversion to be a very serious matter, and have expressed our concern to the Governments of Japan and Norway.

Both Governments are taking steps to prosecute the violators to the full extent of the law and to prevent future violations of export controls. The Japanese Diet has passed new, tough legislation to extend the statute of limitations for export control violations as well as to increase criminal penalties. In Norway, new legislation has been introduced as well. It should receive early action by the Norwegian Storting. In the wake of these damaging and reprehensible diversions, our efforts will be devoted to enlisting the support of our COCOM allies to strengthen their national export controls. It is our hope that such action will prevent and deter technology diversions in the future.

Please accept our apologies for the lateness of our response. The volume of mail which the White House has received in the past few months has made it difficult for us to reply in a more timely fashion.

President Reagan sends you his best wishes and appreciation for taking the time to express your concerns.
